What is a Plant it Forward Service Day?
This year our goal @MCF is to provide local seniors with access to fresh produce by parking our mobile farm stand outside their buildings. In order to have a successful program, we need your help! Community members are needed to help us maintain the sites and make them more sustainable. Please come prepared to work outdoors by:
- Wearing clothing that can get dirty
- Dressing in layers
- Wearing close toed shoes
- Bringing water to drink
- All ages welcome

Volunteer Opportunities

Montclair Community Farms (MCF)
Consists of local organizations committed to providing community farm sites to engage the community in farming, food, agricultural and nutrition education. These local community farms are hands-on resources to create a healthy food environment to support healthy food and lifestyle choices. Food grown on our sites will be made available to the community through low cost farm stands and other direct distribution.

MCF members: HOMECorp, Montclair Health Department, Montclair State University, Montclair Historical Society, Rutgers Cooperative Extension of Essex County: Essex 4-H and Master Gardeners
